

Read this: Fire instructions

If it is a FIRE: Call 110

(FALSE ALARM) If the alarm goes off in the apartment caused by smoke from food or a fireplace, you have 2 MINUTES to:

1. Open all windows and doors
2. Run down to the fire panel and turn the key to the horizontal position
3. Press the **RED** button to stop the alarm
 - You now have 2 new MINUTES on you to check that all smoke in the apartment is gone
4. Before the new 2 minutes are used up, hold down the **GREEN** button for 5 seconds
5. If everything is OK, the alarm in the apartment and the panel ends
6. If it is NOT OK, the alarm goes off throughout the ascent
7. Repeat the same procedure until the alarm goes off completely.

NB!

It is forbidden to touch the detectors that are inside your apartment. These must NOT be touched.
